Jan. 2. 91

To B. L. M. Management Personnel
Millard County Area
Fillmore, Utah

We wish to propose a mining plan for operating
our mining claims - registered as Flake #1, #2 in the
Black Rock area of Millard County.

UME 332282 - 332283

Our plan will be to open pit the Flake #1
covering an area of approx - 2 acres.

We will be mining to a depth of 20 or 30 ft deep
with lifts not to exceed 15 ft.

We also will be mindful of the surface area
so as not to disturb any more than is necessary
for mining the obsidian.

We have attached a sheet showing the
location of our operation as nearly accurate
to Black Spring as possible.

JAN 28 1991
Please advise us of any requirements that
you feel we need to do for this operation
